

CUSTOMIZE GIFTS ONLINE SHOPPING

Entity: Customized Gift

A Customized Gift is an entity because the system stores its information in the database.

The main entities are:

- ❖ Customer
- ❖ Customized Gift
- ❖ Order
- ❖ Payment
- ❖ Delivery

Example: A Customized Gift is an entity because the system stores details such as Gift ID (G101), Gift Name (Customized Photo Frame), Gift Category (Birthday Gift), Price (₹750), and Stock (25).

Attributes

Attributes are the properties or details of an entity.

Example:

The Customized Gift entity has the following attributes:

- ❖ Gift ID
- ❖ Gift Name
- ❖ Gift Category
- ❖ Price
- ❖ Stock

Gift ID	Gift Name	Gift Category	Price	Stock
G101	Customized photo frame	Birthday Gift	750	25

Primary key :

In the Customize Gifts E-Commerce Order Management System, a Primary Key is a unique attribute used to identify each record in an entity.

Example:

Gift_ID uniquely identifies each customized gift, and Customer_ID uniquely identifies each customer.

Gift id	Gift name
G1001	Customized return gifts

Relationship:

In the Customize Gifts E-Commerce Order Management System, a relationship shows how the entities are connected with each other.

1.Customer-Order=One-to-Many(1:M)
